That's why we have the 47 Skin Guarantee.

How Lillie, a 15-year old teenager, cleared her acne and teenage spots with her mum's help without washing her face twice a day.

In this video, Lillie tells us how she struggled with spots since she was 9. From the age of 10, she was washing her face every morning and evening.

At school, she was getting bullied because her spots made her look older than she was.

The doctor prescribed her face creams and face washes and oils...
...without any improvement.

Her mum tried to help Lillie clear acne, but she couldn't find anything that worked.

But one day, Lillie's life changed for the better.

Lillie and her mum noticed an advert from 47 Skin (just like this one) and decided to give our Anti-Blemish & Scar Repair Serum a try.

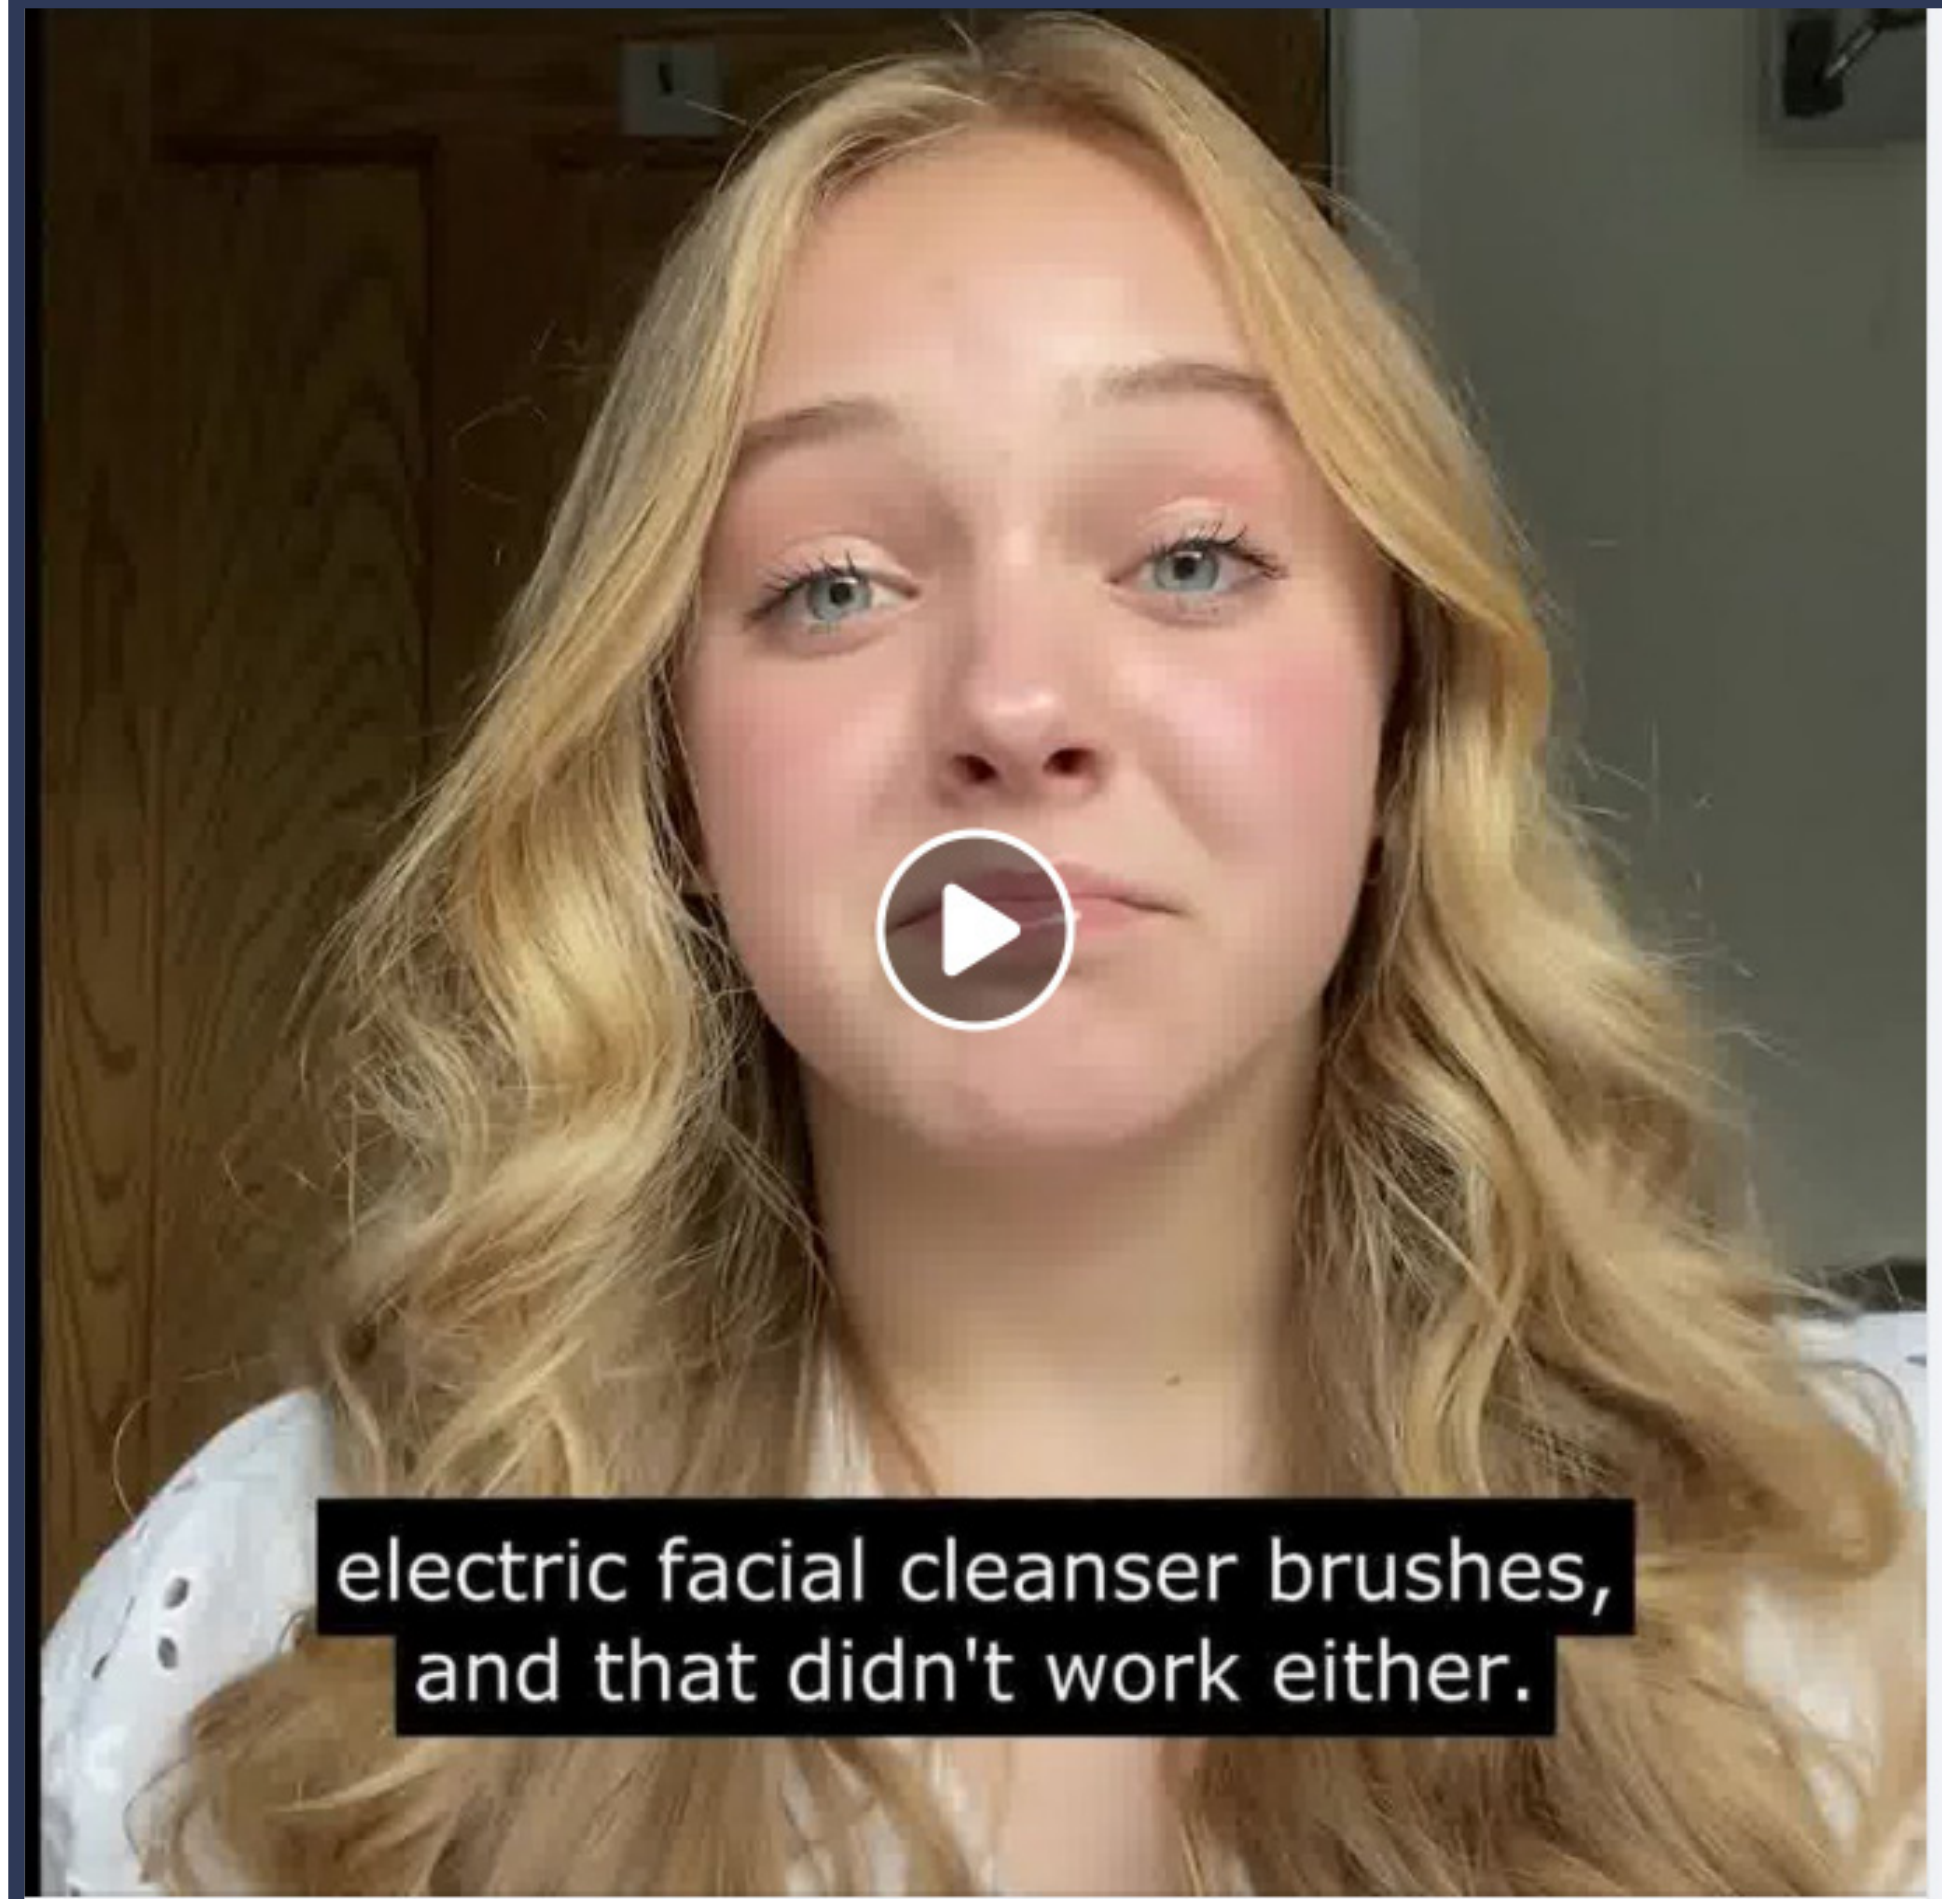

As we can see in this video, Lillie's skin looks:

- Flawless
- Glowing
- Healthy

All because of her attentive mum.

and that didn't work either.

"I'm 34 years old, and I have always had teenage skins. When I was younger, I already had spots when no one else had spots."

In this video, AJ tells her story of struggling with acne and how she got clear skin after years of looking for a solution.

She tells us:

"I have always been self-conscious of my skin and hated the idea of going on holiday and not being able to wear make-up.

When I was younger, people would tell me, "You'll grow out of it".

And every time I got to that stage where I was older, and I should have grown out of it, I discovered new joys of bad skin.

For many years now, I have always been the one that would be purchasing spot creams...

...or reading on the internet on how I can make my skin better and trying it.

I have seen dermatologists who recommended certain medicated products that just dried my skin out...

...and it made me feel a bit hollow.

I have been on certain antibiotics, and again they never made a huge difference.

After all those years, I was getting a bit disheartened.

That's when I discovered 47 Skin.

I have been using the 'Anti-Blemish & Scar Repair Serum' for four months now, and my skin is the healthiest it's ever been.

The Anti-Blemish & Scar Repair Serum...

...makes my skin feel smooth.

...sorted all the dry skin.

...and the spots have disappeared.

...sorted all the dry skin.

...and the spots have disappeared.

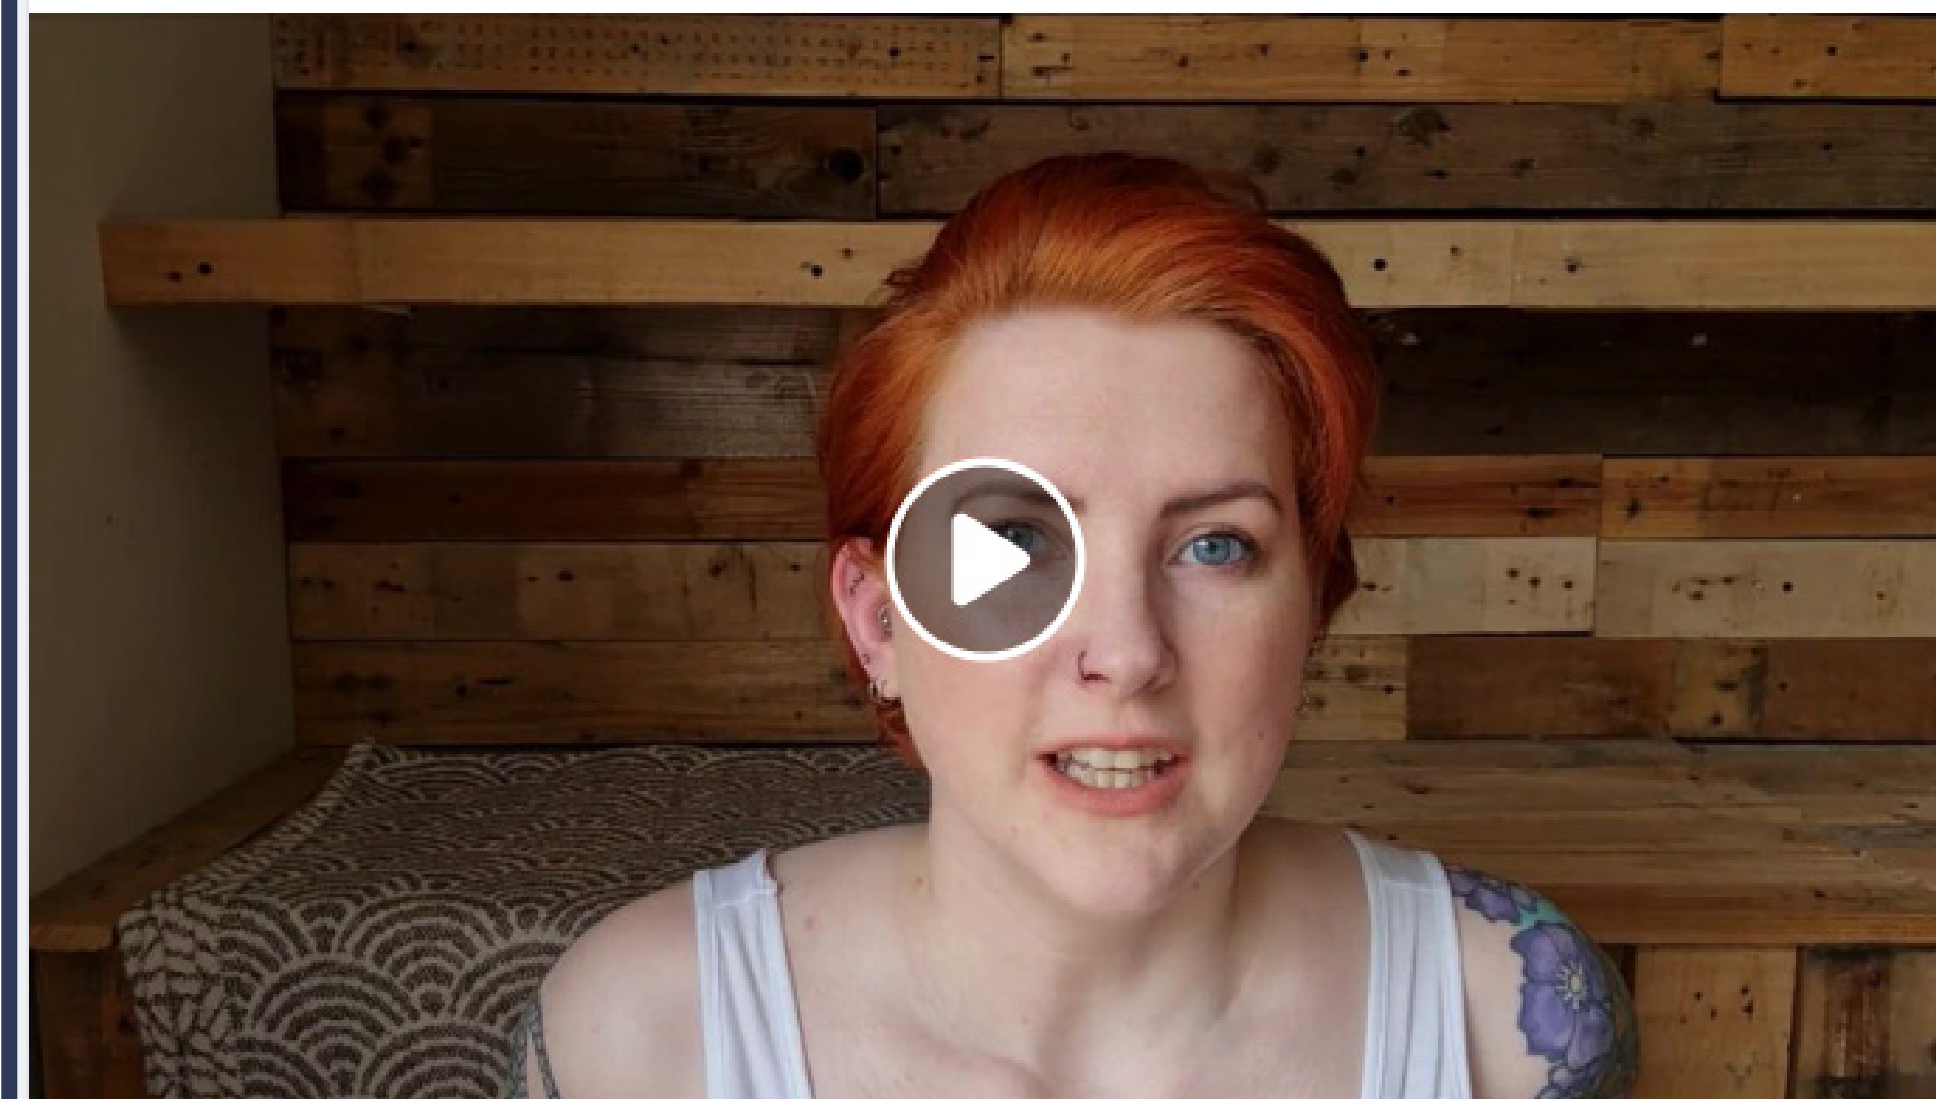

I still get some spots now and then, but they aren't as vicious, and they don't look as angry.

And I am not as self-conscious about them as I know my skin now is AMAZING.

I am just happy that I found something that works for me."

👉 Picture this: you have financial and personal freedom, and you own and operate your own Tax Business.

You have a job you love, helping people to improve their businesses and earn their financial freedom.

Every day is a challenge - the good kind.

The kind of challenge that makes you excited to get up and take on the day.

You have the flexibility to work when you want to - meaning that you can enjoy all of the things in life that are important to you.

Your kids have a recital? You can be there.

Your favorite band is in town? You can book tickets.

Want to be with your family for the holidays? No problem.

You're not restricted by a typical 9-5 schedule, or shift work, or a demanding schedule. You work when it works for you.

Many of our students even end up working less hours in a year while making more than they ever did previously.

It doesn't matter if you're an introvert or a social butterfly, you can do this.

A digital tax biz isn't like what most accountants are up to...

This can be exciting - because you'll see great results and you'll make positive impacts...

And you might even do it in your pajamas from the comfort of your couch!

Or you can set up a home office if you prefer...

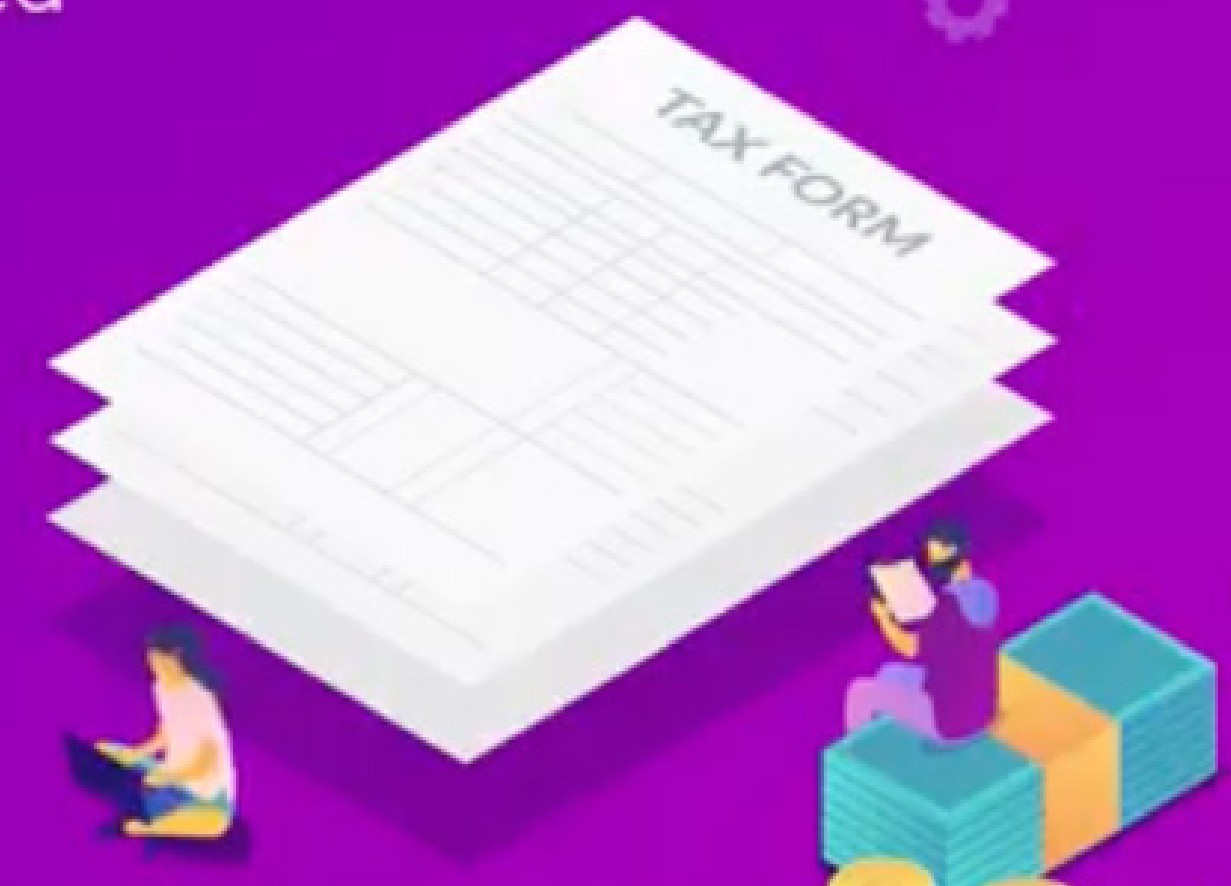

The point is, you won't believe the possibilities that open up to you when you take a chance and start your Tax Biz.

A lot of people are drawn in by the idea of a profitable and engaging work-from-home business - but they let their doubts prevent them from taking the leap...

They're worried that they'll have problems finding clients...

Or that running a business will be too much for them...

That they won't make any money...

That the course will be too much for them...

Or they're afraid to quit their current job for something new...

I understand all of those concerns, BUT, you don't have to worry.

If you're dedicated to putting in the work this course requires, you'll THRIVE.

I'll show you how to find your clients - it's a whole piece of the course, so you could have your first paying customers before you're even finished.

Running a business can be difficult - but I'll show you how to balance your work with your life - so you can work to live rather than live to work. My 'Breakthrough Framework' will teach you how to get more done in less time, so you'll have plenty of time to do the things you love.

Trust me, there are more clients out there looking for help than there are bookkeepers to help them - you won't have any trouble finding clients and making money. And I'll show you my tips to bootstrap your business so you'll have more money to spend on living your life to the fullest.

The course is very involved - it's hard work learning how to have this kind of freedom... but I promise you it's worth it, and I'll be guiding you

of freedom... but I promise you it's worth it, and I'll be guiding you through the whole process.

And if you're not ready to quit your job and go all in yet, that's ok. Take it all in, learn from this course, maybe start part-time - and when you're ready you can decide to take the next steps with your career.

You have nothing to lose, and SO MUCH to gain.

The image shows two Pela phone cases, one yellow and one pink, lying on a white surface. A small, square, brown cardboard tag is placed on top of the yellow case. The tag has handwritten text in black ink that reads: "HEY THERE! Thank You So Much For Supporting PELA AND OUR MISSION TO MAKE THINGS BETTER FOR OUR PLANET, LITTLE BY LITTLE :D Jeremy". At the bottom of the tag, it says "Use PELA2018 for 15% Off at pelacase.com". The yellow case has a honeycomb pattern and the Pela logo at the bottom. The pink case has a smooth texture and the Pela logo at the bottom. A small speaker icon is visible in the bottom right corner of the image area.

"User-Generated Content" might be the holy grail 🏆 when it comes to marketing...

But how do you get it? Here's our strategy. 📌

.

The great thing about UGC (like customer testimonials and product demonstrations) is that it works EVERYWHERE, including:

- ✓ Ads
- ✓ Emails
- ✓ Product Pages
- ✓ Blog Posts

(UGC is even the secret behind my #1 Facebook ad formula:
<https://landing.smartmarketer.com/.../my-number-1...>)

Unfortunately, most of the user-generated content that people get isn't very good — if they can get it at all. 😞

But 6 months ago, we developed a better method for getting UGC.

It's called an AMBASSADOR PROGRAM, and it allows us to...

- ✓ Find the best content creators in our community and get amazing UGC from them
- ✗ Without investing a lot of time, money or energy

...resulting in an endless source of high-quality videos and images to use throughout our marketing. (Sweet!)

I just published an article explaining how we leverage UGC in our #1 Facebook ad formula...

And how we used it to generate \$2.8M and convert over 36K new customers with a single campaign.

At the end of the article, I also explain how you can set up an Ambassador Program for your business. 🎉

You can read it here: <https://landing.smartmarketer.com/.../my-number-1...>

Want to see my #1 Facebook ad formula? 🙄

In just 6 months, this campaign made \$2.8 million and converted over 36k new customers — all from COLD traffic.

Ezra just published this case study showing you how:

<https://landing.smartmarketer.com/.../my-number-1...>

These are the best Facebook ads we've seen in 5 years! 🔥

Here's a breakdown of the campaign results:

- \$2.8M from \$1.5M in spend
- 36K new customers
- 189% ROAS

So while most brands were struggling to get their ads to work (and losing money to acquire new customers)...

We were scaling this campaign to \$22k/day and converting total strangers at nearly a 2x return.

And when Covid-19 started lowering ad costs...

Want to see my #1 Facebook ad formula? 👁️

In just 6 months, this campaign made \$2.8 million and converted over 36k new customers — all from COLD traffic.

Ezra just published this case study showing you how:

<https://landing.smartmarketer.com/.../my-number-1...>

These are the best Facebook ads we've seen in 5 years! 🔥

Here's a breakdown of the campaign results:

- \$2.8M from \$1.5M in spend
- 36K new customers
- 189% ROAS

So while most brands were struggling to get their ads to work (and losing money to acquire new customers)...

How These Unique Hair Ties Gently Hold Up My Natural Curls Without Damaging My Hair Or Putting Tension On The Edges.

All my life I struggled with my big curls.

There were very few hair ties that would fit around my hair.

And the ones that did fit damaged my hair when I tried to take them out.

That's why I developed Snappee, a unique hair tie developed for women with big, natural curls.

Snappee allows you to:

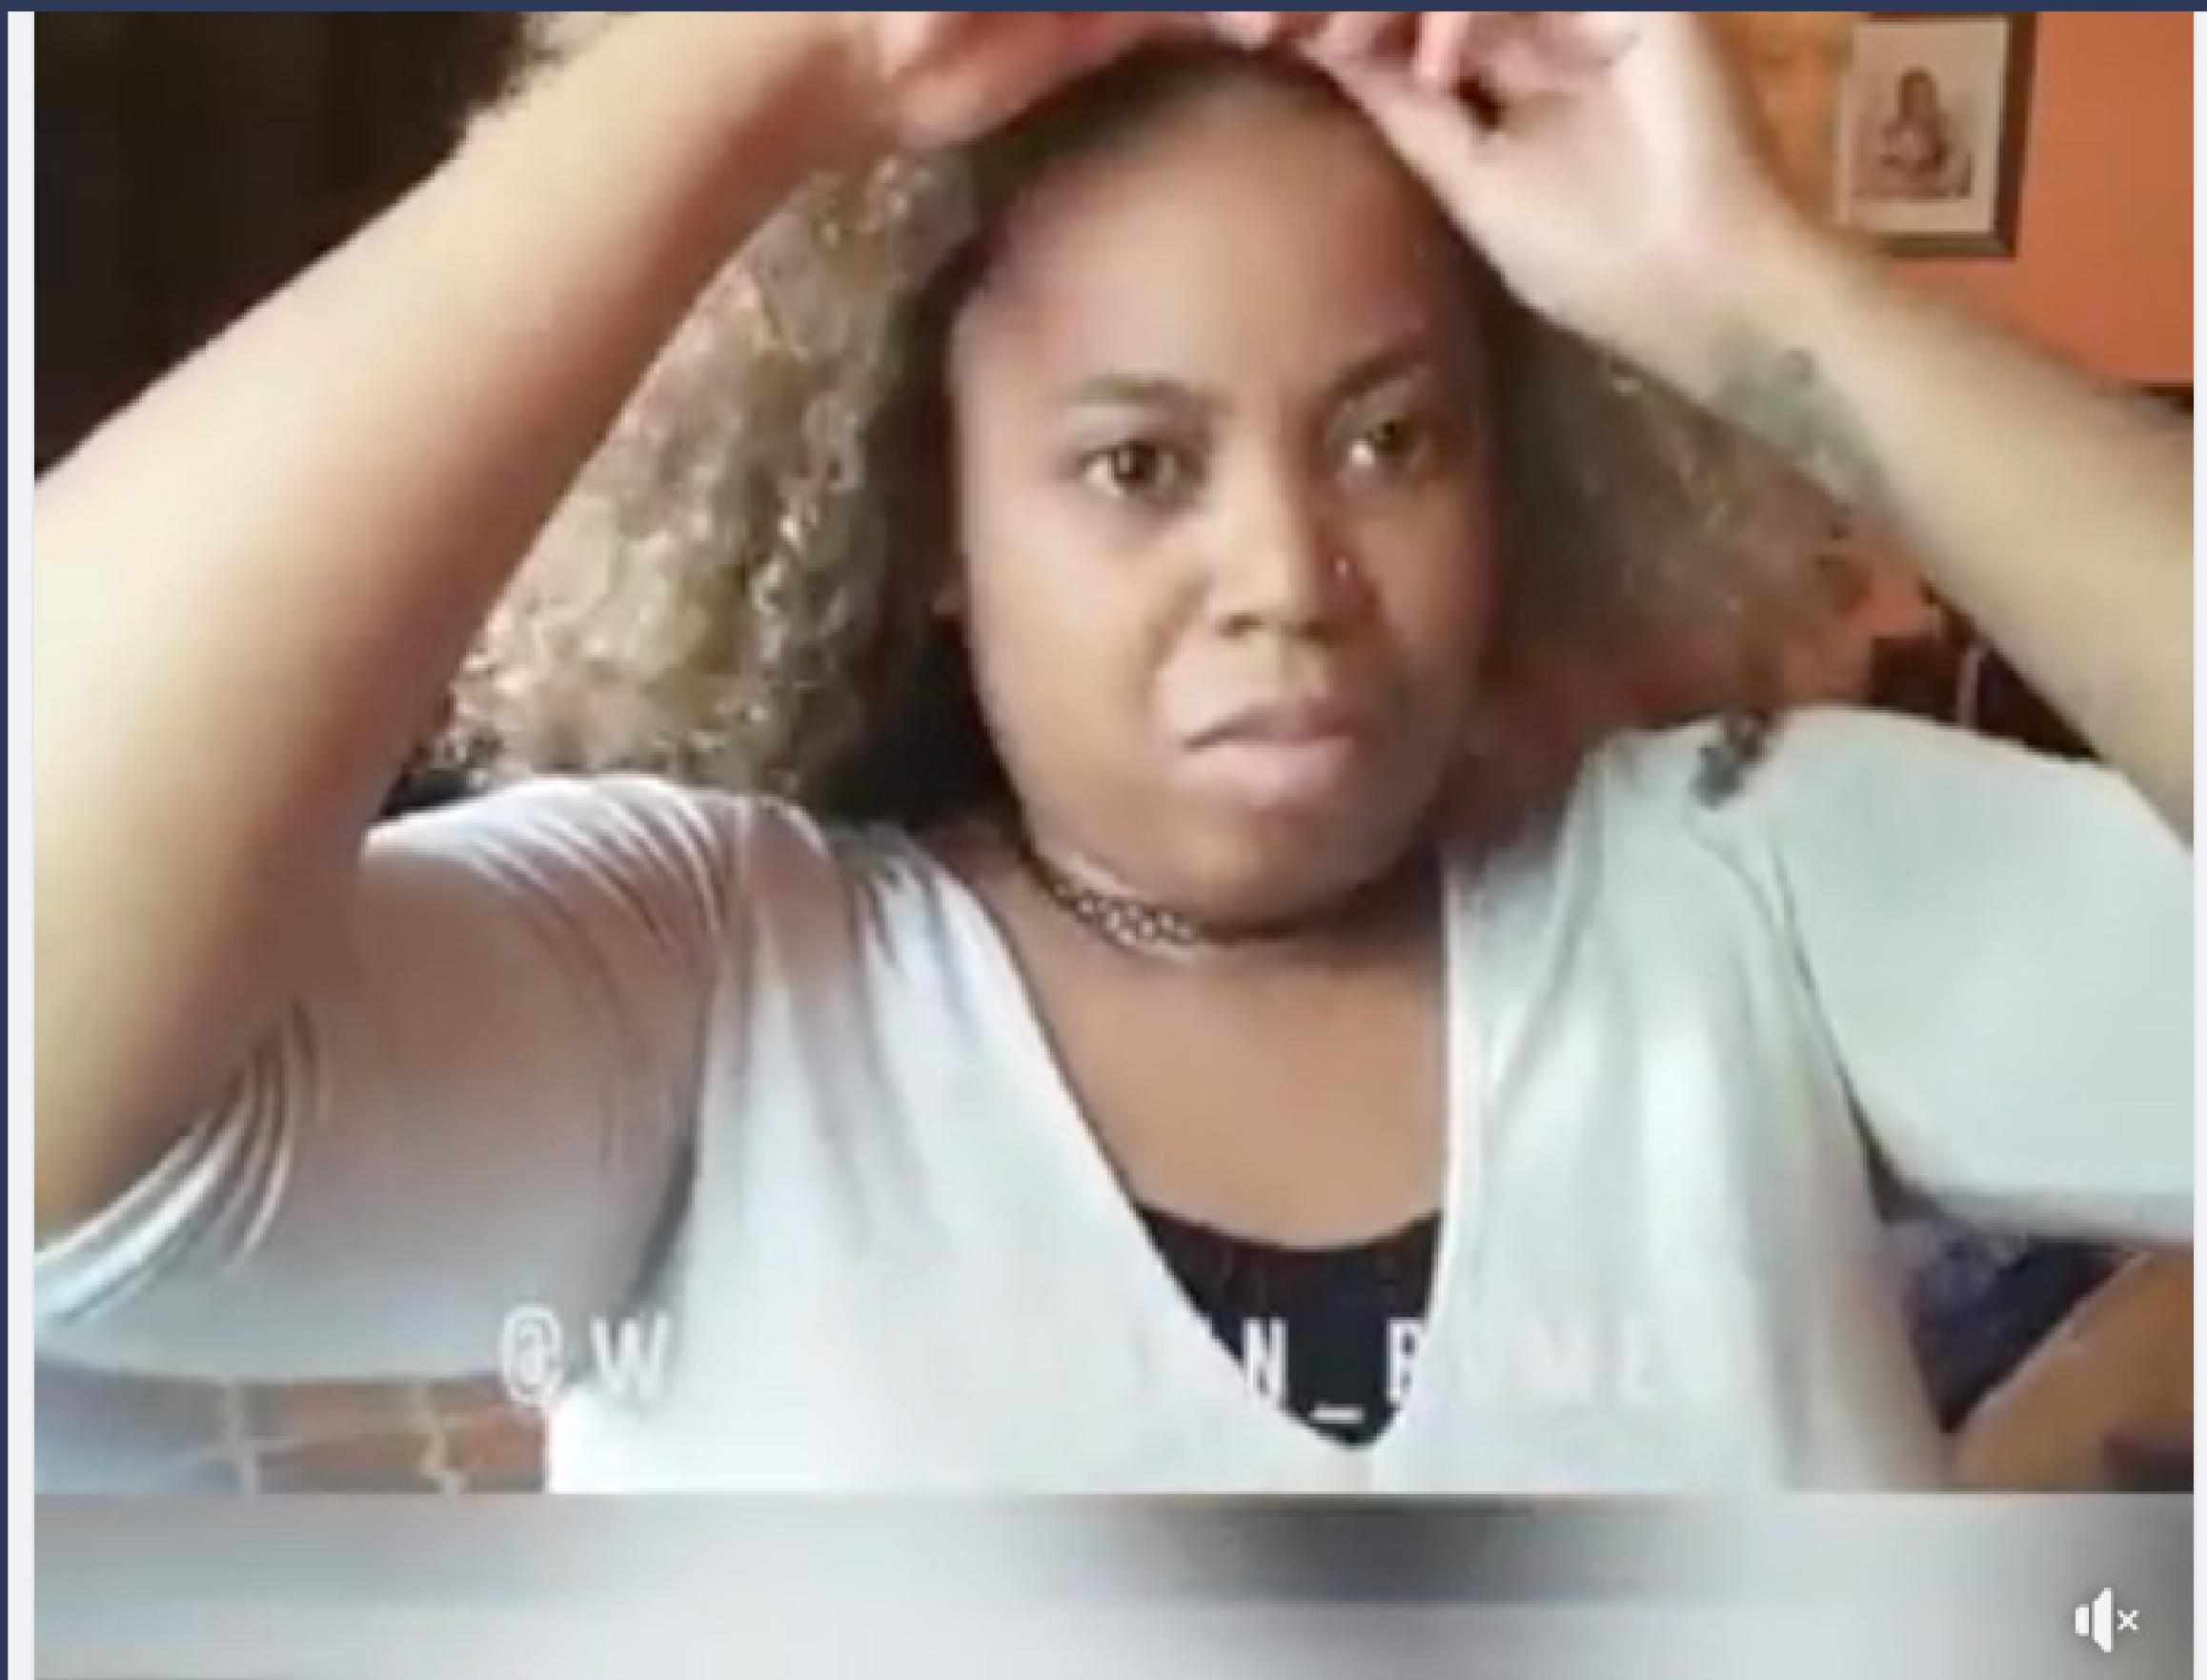

- Perfectly keep a high puff in place.
- Customize the length of the hair tie with a simple system.
- Wear hair ties as long as you want without headaches.
- Remove the hair tie without pulling out hair.

In this video, a few women show how they use Snappee.

Snappee comes with a lifetime warranty.

This means that if one of our Snappee hair ties break, you'll receive a replacement.

FACT: 73% of consumers will switch from a poorly designed mobile site to one that makes purchasing easier.

--

It's no secret that a mobile optimized site is a **MUST HAVE** for any store looking to compete in today's marketplace. However according to Yahoo 91% of small business websites are not mobile optimized.

It might feel like a massive undertaking to redesign your site and all your pages to make sure they're mobile friendly, so we wanted to share some of the mobile optimizations we've made to one of our biggest e-commerce stores that have had a big and immediate impact on revenue.

If you want to learn more about how these mobile optimizations have affected our business check out: <https://landing.zipify.com/pages/zp-headers-presell-page> today.

Introducing the first pro-age cosmetic line for women of every generation. Cindy Joseph, make-up artist turned super model, has created a line of cosmetics especially for you. "BOOM! is for women who want to reveal their genuine beauty with an honest and realistic approach."

Bar appears at the top for a quick way to get to menu/search/cart.

Cindy's natural make-up style influenced the face of beauty for 25 years. Her preference was to allow the character and personality of the woman to come forth, having the make-up enhance rather than mask their natural beauty.

As her career was flourishing, Cindy was studying human behavior, psychology and philosophy along with health and fitness. She was inspired to do so by her desire for self-knowledge and to define true beauty. Becoming healthier and more self-aware as time passed, Cindy embraced her age with enthusiasm and appreciation.

In 1999, at the age of 49, Cindy was approached on the street by a casting agent to model for Dolce and Gabbana photographed by Steven Meisel. That ignited her modeling career with Ford Models Inc.
